PROFILE

Creative UI/UX designer and graphic designer with 100+ freelance projects in logo design, branding and visual identity. Designs user-centric mobile and web interfaces in Figma, from wireframes and interactive prototypes to reusable design systems, and creates visuals in Adobe Illustrator and Photoshop. A Computer Engineering student who also works in web development and Android Studio, which helps turn designs into interfaces that work in real products. Gained hands-on experience through internships at IT Board Azad Kashmir and Renegade Furniture, with a focus on usability, accessibility and consistent brand systems. Looking for a design role where polished ideas become user-friendly products.
